The history of virology — the scientific study of viruses and the infections they cause — began in the closing years of the 19th century. Although Louis Pasteur and Edward Jenner developed the first vaccines to protect against viral infections, they did not know that viruses existed. The first evidence of the existence of viruses came from experiments with filters that had pores small ...

History of virology - Wikipedia
Twenty-five years after the identification of the HEV genome, basic and clinical virology research is gaining momentum due to the increased awareness and perceived importance of hepatitis E as a relevant public health issue . Indeed, previously unrecognized HEV infections in industrialized countries by genotypes 3 and 4 are now known to be zoonotically transmitted and to cause persistent ...

IJOART (ISSN 2278-7763) is a Refereed International Online Journal dedicated to all scientists and engineers involved in engineering and technology. Papers reporting original research or extended versions of already published conference/journal papers are all welcome.
International Journal of Advancements in Research...
The Journal of Pediatric Gastroenterology and Nutrition solicits original research manuscripts in areas of developmental biology and pathogenesis broadly related to intestinal, hepatobiliary, and pancreatic functions. All articles are published as PAP (Published-Ahead-of-Print) within 3-5 days of acceptance. The backlog of Original Articles is now only 3-4 months for in-print publication.

Journal of Pediatric Gastroenterology and Nutrition
Viruses (ISSN 1999-4915; CODEN: VIRUBR) is a peer-reviewed open access journal of virology, published monthly online by MDPI. The American Society for Virology (ASV), the Spanish Society for Virology (SEV), the Canadian Society for Virology (CSV), the Italian Society for Virology (SIV-ISV), the Australasian Virology Society (AVS) and more societies are affiliated with Viruses and their members ...

Pathogens, an international, peer-reviewed Open Access journal. Mucosa-associated Escherichia coli are increased in Crohn’s disease (CD) and colorectal cancer (CRC). CD isolates replicate within macrophages but the specificity of this effect for CD and its mechanism are unclear.

Pathogens | An Open Access Journal from MDPI
With regard to fully harvesting the potential of big data, public health lags behind other fields. To determine this potential, we applied big data (air passenger volume from international areas with active chikungunya transmission, Twitter data, and vectorial capacity estimates of Aedes albopictus mosquitoes) to the 2017 chikungunya outbreaks in Europe to assess the risks for virus ...

Axonal transport, also called axoplasmic transport or axoplasmic flow, is a cellular process responsible for movement of mitochondria, lipids, synaptic vesicles, proteins, and other cell parts (i.e. organelles) to and from a neuron's cell body, through the cytoplasm of its axon (the axoplasm). Since some axons are on the order of meters long, neurons cannot rely on diffusion to carry products ...

Axonal transport - Wikipedia
Biography. Dr. Michael A.B. Naafs is a Dutch internist-endocrinologist with a long clinical career in internal medicine and endocrinology. His Ph.D Endocrinology was obtained at Leiden University (1988) and focused on the renal end-organ resistance to PTH (Parathormone) infusion in normo- and hypercalcaemic patients with solid tumors secreting a PTH-like factor.
